

CARMAR

Maritime Services

Pérez y Cia
grupo

➤ BY YOUR SIDE SINCE 1950

The experience that CARMAR has acquired in the **maritime sector** over time has allowed us to develop a very clear work philosophy.

A philosophy which prioritizes added-value service; individualized solutions and satisfaction from the people who confide in us. Because at CARMAR we know that behind every service, there are people working hard to make it happen.

➤ SERVICES

LOGISTICS

With a strong portfolio of resources we guarantee transport service. To this end, at CARMAR we rely on our own branches (15), not only on the peninsula but also on the Canary Islands and Balearic Islands, which include 11,000 m2 of warehousing and cross-docking. We also have 135 units (flat racks, containers, distribution and delivery trucks, temperature controlled trucks...)

CUSTOMS

Customs procedures can be a complicated process. With this in mind, CARMAR has a customs department located in the Canary Islands which exclusively looks after these arrangements. We also have a significant specialist team in international transit, being one of the principal business segments of Pérez y Cía Group.

SHIP SUPPLY

With logistics being at the core of Carmar portfolio the ship supply segment takes advantage of our large and consolidated network in the country including Balearic and Canary Islands. Powered by strategically located branches in Las Palmas, Tenerife, Coruna, Gijon, Vigo, Algeciras and a central warehouse in Madrid we are able to supply the most important ports in Spain and Gibraltar.

➤ 150 YEAR OF UNINTERRUPTED EXPERIENCE IN THE MARITIME SECTOR

➤ CONTINUOUSLY GROWING

The sector is evolving and changing at an extraordinary pace. This fact has made CARMAR Maritime Services possible. A business division which forms part of the Pérez y Cía Group and is included in the Marítima del Estrecho Logística S.A.U. society.

The goal of this business division is the supply of consumables to any kind of vessel. In addition, a range of other services will be offered, such as warehousing and forwarding of spare parts in transit, of which the final destination are the vessels.

SHIP SUPPLY

We supply vessels with all types of consumables that may be needed.

RECEPTION, TRANSPORT AND TEMPORARY WAREHOUSING OF SPARE PARTS AND OWNER'S GOODS

Our infrastructure allows us to guarantee a timely delivery at the exact moment an order is placed.

CUSTOMS SERVICES

We provide all the necessary arrangements, both legal and technical, to carry out the actions and steps required from the point of view of importation and/or exportation of any merchandise regardless of origin.

SUPPLY OF DUTY FREE

We are specialists in the supply of goods designated as duty free.

OFFSHORE SUPPLY

Our personnel has the training, qualification and experience needed to provide specialized attention in the supply of any item needed by drilling platforms offshore.

NAVAL AND INDUSTRIAL SUPPLY MATERIALS

At CARMAR we endeavour to satisfy our clients.

REPAIR, AUDITS AND INSPECTION OF VESSELS

With the ship bridge control, detailed work or repair of ship machinery. All these problems and many more can be addressed by our professionals and collaborators.

CENTRAL WAREHOUSE

Logistics central warehouse in Madrid (8 hours maximum to any port in Spain and Portugal), 3000 m2, strategically located 10 minutes from **MADRID INTERNATIONAL AIRPORT**, with a comprehensive warehouse management system for **TRACKING AND TRACING** customer assets, spare parts, with **WEB ACCESS** so that customers can verify their goods throughout the entire logistics chain.
